

The integration of Service learning with the DP subject groups:

Project name: *English B HL Listening Comprehension*

Outline: English B – Language acquisition – creating an English B HL Listening Comprehension sample, complying strictly with the principles and requirements set by the IBO, as only one sample has been provided for the students following the new programme, who sit for their final exam in May 2020. It is to be shared with all students taking English B HL at XV. Gimnazija and hopefully shared with the IB Diploma Programme at Prva Gimnazija in Varaždin. This project sprung from an authentic need for more practice in a new assessment area.
