

Unit	Key concept	Related concepts	Global context	Statement of inquiry	Objectives	ATL skills	Content
Bookmark September - December, 2022	Communication	Form, function	Dimension in time and space Understanding ways of communication incorporated in time.	Particular time and space may influence the way and form of communication.	All: A, B, C, D and all strands	<i>Research / Information literacy skills</i> students collect, record and verify interdisciplinary data, and use technology systems to represent their findings. <i>Media literacy skills</i> students demonstrate understanding of media when interpret the data <i>Transfer skills</i> Using skills and knowledge in multiple contexts / make connections between subject groups and disciplines	Unit gives opportunity for exploring graphic design, typographic style and street art. Students will research 2D techniques and media. The whole process is recorded in the notebook.
Notebook January, March 2023	Development	Function, Sustainability,	Personal and cultural expression; exploring form in the context of function	Waste from one product can be used as a raw material for another through the use of design principles and personal expression	All: A, B, C, D and all strands	<i>Communication skills</i> Students should give and receive meaningful feedback <i>Organizational skill</i> Students should learn to set challenging and realistic goals, and also plan strategies and take necessary actions to get it. Keep an organized and logical system of information files/notebooks. Students should organize working area more carefully. <i>Creative thinking skills</i> Students should use brainstorming and visual diagrams to generate new ideas and inquires	Notebook is the unit focused on key terms: waste / raw material, product, design principles, visual identity and creativity. Students are introduced to book making techniques and handmade 3D techniques. Lecturing includes learning about history of books, graphic design and package design. Practical work includes experiments with materials on paper and cardboard, techniques such as folding, binding, gluing, cutting and sewing. Printmaking is also involved as reminiscence of first book printed on Gutenberg press.
Stationary April, June 2023	Development	Function, Adaptation, Form	Globalization and sustainability Exploring sustainability in the context of building global awareness for recycled materials	Ideas may grow through process, form and adaptation of recyclable material.	All: A, B, C, D and all strands	<i>Self management / Organization skills</i> students should learn to set challenging and realistic goals, and also plan strategies and take necessary actions to get it. <i>Creative thinking skills</i> Students should use brainstorming and visual diagrams to generate new ideas and inquires	Exploring includes materials in the context of sustainability. During this unit students will design products for personal use. Unit includes all elements of design cycle such as inquiry, planning activities, learning about materials through experiments. Starting point is form and function. Recording of activities is in notebook.
