Course description 2025./2026.

WHAT IS THE COURSE ABOUT?

Media Arts course highlights the use of dynamic media, such as video, animation, and audio production, to develop creativity, critical thinking, and analytical skills. Students investigate, create, and reflect on media, learning to use it to convey feelings and ideas while understanding its cultural contexts. The course focuses on a balanced approach including idea development, skill acquisition, and reflection, preparing students to function as artists and effective learners within a global context.

Students will develop media literacy skills by using the creative and critical analysis in a range of reflective and analytical activities. Students will develop an understanding of the conventions and elements of media and safe practices related to media, and will develop a variety of skills transferable to other areas of their life.

As part of Media Arts teaching, students will learn about these topics:

REQUIREMENTS:

Media arts classes takes place in Art classroom with two periods a week. Most of supplies are available in the classroom, but students also need a notebook – so called Process journal that is used for recording process and progress during the course which is formatively assessed.

ASSESSMENT:

Students are assessed continually - oral and written work alike - through various written assignments such as commentaries on media, different types of essays, tests, quizzes, homework assignments, etc. They will be assessed individually, as a member of a group working as a team, in pair work or class discussion. Also personal engagement throughout the school year will be taken into consideration. This means that students are assessed formatively throughout the school year (Process Journal).

The assessment criteria and assessment tasks are presented at the beginning of each task/project either orally or in written form. However depending on the nature of a task specific assessment criteria and rubrics will be provided-either orally or in a written form.

Summative assessment:

- Written exams about knowledge and understanding of key terms used in topic
- Power Point/Prezi/Oral presentations
- Esseys

Formative assessment:

- Process journal
- Posters about specific topic
- Use of knowledge and language in planning, researching and presentation about music topics
- Written evaluations and reflections of musical compositions

The general assessment and grade descriptors for MYP Music are criterion-related, based on four equally weighted assessment criteria which also correspond directly to the objectives of MYP Music. Not all of the criteria are necessarily always assessed.

CRITERION	MAXIMUM LEVEL OF ACHIEVEMENT
A: Investigating	8 points
B: Developing	8 points
C: Creating/Performing	8 points
D: Evaluating	8 points

Within each unit it is possible to provide more than one summative assessment assignment. At the end of the school year the levels of achievement for each of the assessment criteria will be decided on and then the total will be converted into the final grade. The conversion table is prescribed by the IB and cannot be changed or adapted.

At the end of the school year the levels of achievement for each of the assessment criteria will be decided on and then the total / summative assessment/ will be converted into the final grade. The conversion table is provided by the IB as follow:
